New York Stock Market

NEW YORK, September 13 .- The dull crade and the narrowing price fluctuations in to-day's stock market marked the normal rate of subsidence from the violent contortions, pending the adjustment of last week's leading event. No one supposed that the death of a capitalist of Mr. Harriman's power and grasp contained any positive force for betterment of values of securities. The early termination of the headlong advance of Friday was expected, therefore, and the agency of the uncovered short interest in causing it was quite justly recognized. The reactionary tendency which developed on Saturday was pushed by various professional devices to-day in the effort to widen the swing of the price movement on which professional traders' profits depend, The growing exhaustion of last week's powerful motive forced was manifest in the restriction of the reaction and later fluttering vibrations of prices. Such action represents the settling down of the market to await new developments.

The remaining traces of feverishers in the movement of Union Pacific the normal rate of subsidence from the

Such action represents the settling down of the market to await new developments.

The remaining traces of feverishness in the movement of Union Pacific were accountable by the steps taken towards the continuity of its administration and to some of the rumors bearing on the future policy of the vast interests and the powerful influence thus involved. The prompt election of new members of the board of directors and of the executive committee was regarded as intended to put a stop to some of the rumors of alleged contemplated changes.

The expectation that a member of J. P. Morgan and Company was to be admitted to the board was thus disappointed. The disturbance of sentiment reported from London as due to rumors of antagonism between powerful banking interests was supposed to be connected with this subject. London also took unfavorable views of the monetary outlook, and was disquieted as well by the American Copper statistics as showing a rate of production still running heavily in excess of consumption. The relative position of United States Sizel and Amalgamated Copper, which changed on Saturday when the former rose above the latter for the first time, was unaltered to-day. The unsettlement in the market was aggravated by rumors that embarrassments of brokerage houses were threatened as a consequence of the violent fluctuations of the recent past. The denial of these rumors gave the market its show of strength during the mid-session, but a fresh reaction in Union Pacific later proved its influence on the general list still maintained.

The complexion of the weekly bank teatment published after the market

proved its influence on the general list still maintained.

The complexion of the weekly bank statement, published after the market closed on Saturday, came in for much discussion, and prepared sentiment for a future hardening of money rates. While firmer rates are quite generally expected, bankers do not anticipate tight money markets this fall, in spite of the narrow margin of the surplus reserve of the banks at present. According to actual showing, this stood at the end of the banking week at only \$3.582.425, while the average showing only gave \$6.469.175. The \$3.231.000 absorption by the Subtreasury for the new banking week is partly due to the transfer to San Francisco of another \$1.500.000 gold for shipment to Japan. A rise in Chicago Exchange to 20 cents discount per \$1.000 was a development of the day, but the tide of the currency movement is strongly towards the interior.

In London Russian competition for the gold arriving caused a sharp jump to the market price, in the local

In London Russian competition for the gold arriving caused a sharp jump in the market price. In the local money market, the feature was an active demand for money carrying over the end of the year, for which 41-4 per cent, was paid. There is an increasing supply also of commercial paper, and prime grades for the regular maturities were marked up to 41-2@5 per cent. The range for call loans was not changed, but some of the banks are said to be calling loans. The fall in Union Pacific, allowing for the dividend of to-day, carried it of 73-8 from the high point of the rally touched on Saturday. The closing of the books to-day for the coming annual meeting ends any demand for representation at that meeting.

Books were weak.

Total varies, par value, \$3,556,000. United States bonds were unchanged on call.

COTTON MARKETS.

COTTON MARKETS.

NEW YORK, September 13—An early decline of \$1 per bale in the cotton market was partly recovered in the late trading, the close being firm at a net loss of 7@11 points. The market opened casy at a decline of 9@16 points, and after some little irregularity sold off to a net loss of 29 points with January touching 12.05, or over \$2.30 per bale under the high figures of last Wednesday. This decline was the result of heavy liquidation and ston-loss orders fullowing weak Liverpeol cables, the showing of the English market being attributed to liquidation and hedge selling, and suggesting that foreign spinners were less nervous over future supplies, owing to the failure of the market to hold its advince since the the publication of the September condition figures and the lncreasing movement. It was rumored that a big Southwestern bull was liquidating his long line, and one broker was credited with selling fully 50,000 bales during the morning. Offerings became lighter after midday. The undertone of the market continued very nervous and unsettled, but there was some support from covering from shorts, and following the half hour prices railled some 10@11 points from the lowest. There was nothing in the Southern news to modify bullish crop ideas, as temperatures continued very high in the Western belt on Sunday, and while the reports of a walkout as a result of labor from the lowest. There was nothing in the Southern news to modify bullish crop ideas, as temperatures continued very high in the Western belt on Sunday, and while the reports of a walkout as a result of labor from the interest of the increasing movement appears to be the chief factor againg very first.

Receipts at the ports to-day were 41,292 bales against 20,421 last week and 35,660 last.

CHICAGO GRAIN MARKET

CHICAGO GRAIN MARKET.

CHICAGO, September 13.—Reports claiming serious damage to the wheat crop of Argentina by locusis caused a sharp bulge in wheat prices on the Board of Trade here to-day. Final quotations showed gains of 1%@1%c to 1%c. compared with Saturday's close. Corn and oats closed steady and provisions irregular.

Early in the session the market was depressed by the enormous receipts in the Northwest, which were the largest on record.

visions irregular.

Early in the session the market was depressed by the enormous receipts in the Northwest, which were the largest on record. Firmless of cash wheat here and in the Southwest, the were the largest on record. Firmless of cash wheat here and in the Southwest, however, tended to offset this liberal movement. The Solution of the liberal movement. The Solution of the liberal movement of the solution of the liberal movement of the solution of the liberal movement. The solution of the day sold between \$1.014 and \$1.035. December staged between \$1.014 and \$1.035. December staged between \$1.034 and \$1.035. December staged between \$1.034 and \$1.035. December staged strong at almost the top. September being at \$1.635 and December at \$83, \$9856. Increased strong at almost the copy staged considerable weakness in the corn market, but the late strength for wheat caused a firmer feeling in the final hour. As a result of increased offerings from the country of the solution of increased offerings from the country with prices of the cash grain declined from \$1.214. The market closed about steady with prices at shade higher to \$56. lower compared with the previous close.

Weakness of corn prompted moderate profit-taking in oats, which resulted in a heavy tone. Final quotations showed gains of a shade to \$60.

Provisions were weak with the exception of Sentember pork was up 1250, while the remainder of the list was 7½ to 200 2426. lower.

MISCELLANEOUS MARKETS.

PEANUT MARKET.

(Reported by Rodgers, McCabe & Co.)

PETERSBURG, VA., September 13.—PEANUTS-Spanish-Market quiet at \$1.15 per fancy stock; machine picked, 24@2%c; shelling stock, 2c. DRY GOODS MARKET

DRY GOODS MARKET.

NEW YORK, September 12.—The primary cotton goods market was quiet during the day, but values were very hard in every direction. The jobbing houses did a good business in prints and solid color cottons for decorative purposes, and there was a steady demand for prints for export. A slight improvement is reported in some quarters of the worsted dress goods market, but this textile division is not on the soundest possible basis. The interest in raw sitk is confined to specialties. Japan sliks were again easier.

SAILED. Steamer Brandon, Harney, Norfolk, merchandise and passengers, Old Dominion Line. Steamer Berkeley, Shelly, Norfolk, merchandise and passengers, Old Dominion Line. Steamer Pocchonias, Graves, Norfolk and James River landings, merchandise and passengers, Virginia Navigation Company. Steamer Autora, Craddock, Petersburg and James River landings, merchandise and passengers, Phillips Line.

On Foreign Exchanges

Con Foreign Exchanges

LONDON, September 13.—Money was a in quiet demand on the market today and discounts were steady.

The Stock Exchange markets, with the exception of the American department, were mostly lifeless. Consols cased, foreigners were steady, home rails were quiet, copper shares were affected by the New York statistics, and Kaffirs weapened in Paris selling. The arrivals of bar gold, \$2,750,000, were taken by Russia.

American securities opened flat and generally below parity. Weakness developed on the Harriman shares later, and at noon the market was dull with prices from 2 3-4 points doubt in the principal factors being lack of definitions continued in the afternoon, the principal factors being lack of definite news regarding the future of the Harriman railroads and the unfavorable New York bank statement. There was considerable selling of Unit. ed States Steel, The market was active and weak most of the day, but prices hardened near the close and the general list improved.

BERLIN. September 13.—Trading on

BERLIN, September 13.—Trading on the Bourse to-day was inactive, but prices were firm.

WILL PROHIBIT EXPORTATION.

WILL PROHIBIT EXPORTATION.

Province of Quebec to Protect Its Paper Manufacturers.

NEW YORK, September 12.—The province of Quebec has definitely decided to prohibit the exportation of pulp wood cut from crown lands. In September, 1900, the Premier of the province made a promise that the stumpage rates of 60 cents per cord of wood cut from crown lands would not be raised for a period of ten years. It is intended to carry out that pledge, and no increased stumpage charges will be made until September, 1910. The Canadian paper-makers are urging the provincial authorities to stop the exportation of pulp wood cut from crown lands, but the American owners of rights to cut timber of more than 12,060 square miles of those lands represent that the piedge of September, 1900, implied a right of importation for ten years, and that in good faith no prohibition should be made until the lapse of that period.

The Canadian paper and pulp interests retort that the piedge specifically related to stumpage taxes, not to exportation, and that the extension of that privilege to American owners for another year will retard Canadian plans and discriminate against Canadian manufacturers, who now suffer because of the retailatory clauses of the United States tariff on print paper. The provincial authorities are balancing the question whether they should prohibit the exportation of pulp wood on January 1, 1910, or September 1, 1910. They calculate that their new policy will add over \$200,000 per annum in revenues. They are informed that the interests controlling the Berlin milla property in New Hampshire are planning to install a print paper mill plant at La Tuque, Canada, and that the Interests controlling the Berlin milla property in New Hampshire are planning to install a print paper mill plant at La Tuque, Canada, and that the Interests controlling the manufacture of print paper mills in Canada—that company having stopped the manufacture of print paper is not manuer of its more expensive mills in Canada—that company having stopped t
